Tinna began her work in the fashion industry at the young age of sixteen. Later, she studied at the College of Industry and graduated with a degree in Exhibition Design in 2004.

After graduating, she worked as a stylist for both TV and Fashion shows, including working as a costume designer on film and TV sets.

Tinna started her freelance career working for Ey Agency Iceland in 2005, overseeing the model department as well as starting her casting career. She was a producer for Ey Agency for large productions for model agencies such as Ford and Next during 2005 to 2008. Furthermore, during this time, she did freelance work as a costume designer for several years.

By the year 2012, Tinna became a full-time employee at Ey Agency, doing casting for both film and TV as well as for commercials. Two years later, Tinna began casting for big Hollywood films which she has continued ever since. She has also been overseeing extras on set and coordinating them.

In January 2022, Tinna became a partner in Ey Agency and together with Andrea, the founder of Ey Agency, they do casting for both TV and Feature Films.
